Home Digital TV Converter Box With DVR

The CableTronix digital TV set-top box seamlessly integrates over-the-air and unscrambled cable TV channels with a television. It features a favorite channel function and closed captioning (CC) for the hearing impaired. Additionally, it is equipped with a built-in DVR, allowing the user to record and playback their favorite TV shows at their convenience. The set-top box also has a digital clock display and a media player feature, enabling the user to enjoy videos, music, and photos via the USB port. Connecting the CableTronix set-top box to a TV is a breeze with multiple options, including HDMI, RCA, and Coax Cable outputs. The set-top box includes a remote control with batteries, RCA cable, and user manual.

A DataTronix USB flash drive, model DT-USB-128GB-FAT32 can be purchased separately for playback and storage.
