

CT-PA-948V2

Heavy-Duty Dual-Arm Full-Motion Television/Monitor Wall Mount

The Cabletronix CT-PA-948V2 is a heavy-duty, full-motion wall mount engineered to support large LCD and LED televisions and monitors ranging from 37 to 95 inches. With a manufacturer-rated weight capacity of up to 165 pounds, it is designed to provide stable, secure mounting for large-format displays.

Dual articulating arms allow the display to extend, retract, swivel, and tilt for flexible positioning. The mount retracts to just 2.7 inches from the wall for a clean, low-profile appearance and extends up to 25 inches for improved viewing-angle adjustment and convenient access to cables and connections.

A swivel range of +60° to -60° makes it possible to position the display toward different viewing areas. Toolless tilt adjustment provides additional control over the vertical viewing angle. After installation, the display can be leveled by +3° to -3°, helping compensate for minor installation irregularities and ensuring that the screen is properly aligned.

Integrated cable management helps organize and conceal connected cables, while decorative trim panels create a clean, professional finished appearance. A quick-release latching system simplifies display installation and removal.

Key Features

- Heavy-duty wall mount for large LCD and LED displays
- Supports display sizes from 37 to 95 inches
- Manufacturer-rated weight capacity of up to 165 lb. (74.8 kg)
- Dual articulating arms for stable full-motion positioning
- Extends up to 25 in. (635 mm) from the wall
- Retracts to 2.7 in. (68.6 mm) for a low-profile installation
- +60° to -60° swivel range for flexible side-to-side viewing
- Toolless +5° to -15° tilt adjustment
- +3° to -3° post-installation leveling adjustment
- Quick-release latching system
- Integrated cable-management system
- Decorative trim panels for a professional appearance
- Durable black finish
- Compatible with multiple VESA mounting patterns

Specifications

Product Type	Heavy-duty, dual-arm, full-motion television/monitor wall mount
Compatible Display Types	LCD and LED televisions and monitors
Recommended Display Size	37–95 in.
Maximum Weight Capacity	165 lb. (74.8 kg)
Minimum Distance from Wall	2.7 in. (68.6 mm)
Maximum Extension	25 in. (635 mm)
Swivel Range	+60° to -60°
Tilt Range	+5° to -15°, toolless adjustment
Post-Installation Leveling	+3° to -3°
VESA Compatibility	200 × 200, 300 × 300, 400 × 200, 400 × 400, 600 × 400, and 800 × 400 mm
Arm Configuration	Dual articulating arms
Cable Management	Integrated
Display Attachment	Quick-release latching system
Finish	Black
Warranty	1-Year Limited
