

CT-PCHRM9

9-Outlet Rack-Mount Power Distribution Center, 15 Amp, Surge and Spike Protection

Ideal for powering multiple active devices within an equipment rack, this versatile rack-mounted power center streamlines power management by consolidating multiple power strips into a single on/off switch. The CT-PCHRM9 offers 8 rear panel outlets and 1 front panel outlet, all powered by a single 15 A circuit. It provides efficient power distribution while maintaining safety with EMI filtering, surge, and spike protection. The included 10 foot UL listed power cord ensures ample reach, and the backlit combination circuit breaker and power switch allow for easy control of all (9) outlets simultaneously. Finished with a sleek black powder coat, the CT-PCHRM9 integrates seamlessly with most rack-mounted electronics.

Key Features

- **Comprehensive Power Distribution:** The CT-PCHRM9 offers (8) rear panel outlets and 1 front panel outlet, all powered by a single 15 A circuit, ensuring efficient and organized power distribution for multiple devices in an equipment rack.
- **Surge and Spike Protection:** Equipped with EMI filtering and built-in surge and spike protection, this power center safeguards your equipment from electrical interference and power fluctuations.
- **Centralized On/Off Control:** The backlit combination circuit breaker and power switch allow for all 9 outlets to be controlled simultaneously, providing a simple and convenient way to manage power for your entire rack setup.

Specifications

Product Type	General PDU
Socket	9 Outlet, 8 Rear 1 Front
Function	Power Filter, Surge Protection
Power Input Direction	Right
Installation Type	Rack Mount
Power Cable Spec	14AWG 10FT 15A NEMA 5-15, UL
Housing	T15 Aluminum Alloy, Black
Mount Hole Center Distance	(460.4 mm)
Rate Voltage	125V AC 50/60Hz
Rate Current	15A
Max Current	15A
Max Power	1875W
Dimensions	19.01 x 3.54 x 1.77" (482.9 x 90 x 45 mm)
Weight	3.08 lbs (1.4 kg)
Warranty	1-Year Limited Warranty
