

## CT-RG11CF

### RG-11 F Type Compression Connector

The CT-RG11CF is an RG11 compression F connector designed for use with RG11 coaxial cable and is commonly used for high-frequency and high-bandwidth applications, such as in cable television (CATV) and satellite TV installations, as well as long-distance video signal transmission. When the CT-RG11CF connector is correctly compression crimped, it provides a secure and reliable connection. It forms a tight (360-degree) seal that effectively prevents moisture and potential RF interference from entering the cable. This ensures optimal signal quality and minimizes signal loss or degradation caused by external factors.

By using the CT-RG11CF compression crimp connector, the integrity of the cabling system is maintained, and the risk of signal interference or damage due to moisture infiltration is significantly reduced. This connector is an essential component in ensuring the reliable transmission of high-frequency signals over RG-11 cables.

#### Material Specifications

No	Description	Material	Notes	No	Description	Material	Notes
1	Tube	PP	White	7	Tube	Rubber	Nickel Plated
2	Nut	Brass	Nickel Plated (5µm-7µm)	8		POM	Black
3	Tube	Brass	Nickel Plated	9	Insulator	POM	White
4	O-Ring	Rubber	Black Waterproof Rubber	10	Center Pin	HPb59-1	Nickel Plated
5	O-Ring	Rubber	Black Waterproof Rubber	11	Shell	Copper	Nickel Plated (5µm-7µm)
6	Sleeve	HPb59-1	Tinned Plated				

#### General

Weight (Single Connector)	0.46 lbs. (0.208 kg)	Weight (Pack of 25)	1.2 lbs. ( 0.544 kg)
Connector Dimensions	Φ0.622" x 1.83" (Φ15.8 x 46.5 mm)	Warranty	1-Year Limited Warranty

CT-RG11CF RG-11 F Type Compression Connector - Sold in Packs of 25

#### Compatible Compression Tools

##### CT-CCT-BFR2

The CT-CCT-BFR2 is a compression technology multimedia connector crimping tool. This tool is compatible with most major brands F, RCA, and BNC compression connectors, and has interchangeable tips stored into the threaded housings of the tool when not in use.

##### CPLCCT-S59-11

The CPLCCT-S59-11 compression crimping tool provides professional installers the ability to create field customized cable installations from start to finish. This tool is crafted to be both durable and lightweight, and is compatible with the Belden FSNS compression series coaxial connector products for RG59, RG6, RG7, and RG11.
