- Titanium dome tweeter
- 8 Ohm Impedance
- White paintable grill
- Grill attaches magnetically
- Sold as each

### Contents Include:

- 1 SD-CSP6.5-1 Speaker
- 1 Mounting Template
- 1 Owner's Manual

### Description:

The Symphonic Designs series of recessed speakers have been designed with the quality conscious custom home integrator in mind. Paintable grills and a low profile design make the Symphonic Designs series of recessed speakers perfect for a wide variety of custom installations. This also makes them a perfect choice of speakers to keep on every installation vehicle as a profitable up-sell item.

The SD-CSP6.5-1 2-way in-ceiling loudspeaker delivers powerful and clear sound. The frameless design allows for the round or square grill to attach magnetically to the loudspeaker. The unique kevlar woven woofer cone employs the strength of Kevlar to help the cone retain its shape at very high energy levels. Its low mass assures quick, accurate response. The cone's woven surface delivers smooth, uncolored mids. The rubber surrounding ensures that these woofers will provide years of consistent, reliable performance. Each speaker has integrated dog-ear brackets included for retrofit applications.

### Specifications:
