Description:

The Symphonic Designs series of recessed speakers have been designed with the quality conscious custom home integrator in mind. Paintable grills and a low profile design make the Symphonic Designs series of recessed speakers perfect for a wide variety of custom installations. This also makes them a perfect choice of speakers to keep on every installation vehicle as a profitable up-sell item.

The SD-INDCL-6.5 is a compact ceiling speaker providing premium performance in background and foreground music sound systems. It suits a wide variety of applications from casinos and hotels to upscale restaurants and themed locations. High power handling, wide frequency response and low distortion make it ideal for sound systems requiring a higher fidelity sound from ceiling loudspeakers. The premium performance capability ensures excellent sound character, providing pleasant, enveloping sound throughout the listening area. Frameless design and micro-perforated grills minimize visibility.
