High Definition Fixed Lens Dome Camera

The ST-HD-D3.6-2MP is a high-definition fixed lens camera designed around a 1/2.8" Color 2.4 megapixel CMOS with IR LEDs providing infrared capability up to 65 feet, and a 3.6mm fixed lens. The ability to send HD video over coaxial cable makes the ST-HD-D3.6-2MP a cost effective high-definition surveillance solution for any budget. The HD-COAXINATOR™ series utilizes the same coaxial cable, connectors, and power plugs as a traditional analog CCTV system. The series is priced like analog and delivers resolution like IP, but without video latency or other difficulties found when dealing with IP based systems. Integrators can easily upgrade existing systems from analog to HD by simply replacing the old DVR and analog cameras with HD-COAXINATOR™ cameras and CVR digital video recorder.
